Intellectual Property Statement on behalf of the Submission of the Cryptographic Primitive, Asymmetric Digital Signature Scheme “SFLASH” to the NESSIE project within the IST Programme of the European Commission.

We, CP8 Technologies, a company organized under the Republic of France and having its principal place of business 36-38 rue de la Princesse, 78430 LOUVECIENNES, declare that we are the sole owner of the French Patent Application published under number 2 815 493 (hereinafter referred to as the “Patent Right”) and that we have the legal right to grant licenses under the Patent Right.

We are willing to grant anyone who so requests, a license under our Patent Right on a non-discriminatory and non-prohibitive basis insofar and to the extent that the Patent Right is essential to a standard issued by a publicly recognized standardization body in the sense that the standard cannot be practiced without use of the Patent Right, on condition that the requester is equally willing to grant anyone who so requests, a license under any of his patent rights that is essential to the standard on a non-discriminatory and non-prohibitive basis.

Done the 26th Day of March, 2003 at Louveciennes, France

Catherine LE VU,
President CP8 Technologies
